<b>Software Development &amp; Blockchain Technology.</b> Full stack 2023 <a href="#">View Certificate</a>	BINANCE CHARITY / ACADEMY SCHOLARSHIP
<b>HARVARD / EDX CS50x</b> Introduction to Computer Science / Programming 2024 <a href="#">View Certificate</a>	HARVARD UNIVERSITY,

## PROJECTS

### Chat Connect

- Chat connect is a real time messaging web based application with precreated discussion rooms and it also support private messaging
- The application is built with Node Js, socket.io and mongo Db
- The user interface is built with React JS framework
- View live demo : <https://chatconnect.vercel.app>

### Webdev Blog

- Webdev blog is a web application that provides online based information for tech enthusiasts and individuals who are willing to dive into the world of tech and programming
- The application is built with Node Js (Typescript) on the backend, mongo Db as databse, React JS Library for the frontend with the combination of bootsrap and vanilla css for the styling
- View live demo : <webdev-blog-rust.vercel.app>

### Chat AI

- Chat Ai is an application powered by Open Ai Gpt Api
- Chat Ai provides answers to users questions on real time
- It is built with Node Js and powered by socket.io
- View live demo : <https://chat-ai-client-alpha.vercel.app>

## WORK EXPERIENCE

### Web / Software Developer

**Freelance**  
Developed and managed different websites/software, for different clients (Both individuals and organizations). Providing unique solutions to their different problems using cutting-edge technologies  
[Recent Project Executed](#)

### Backend Engineer (NodeJs) The House of Sounds Entertainment (those.app)

**Remote**  
Worked on different functionalities of their application built on a micro-services architecture with typescript nodejs, PostgreSQL, and mongodb databases

I was able to implement an industry standard user authentication system leveraging the google OAuth2 authentication API

I was able to implement a payment system for PRO version users, strictly adhering to all security measures and recommendations ensuring that users have a seamless and secured payment process on the platform

I was able to implement a proper authorization system ensuring regular users are restricted from certain functionalities accessible to only PRO users

### Fullstack Tech Instructor (MERN) GoMyCode

**On-site**  
Contributed to the growth of the students and ensure all tracks are completed before the course track deadlines

Provides relevant study materials for students to improve their learning process and progress

Create self recorded video to guide students through their learning process

Give feedback and recommendations on tasks and projects completed by students on key areas of improvement and best practices to adhere to in a real-life work environment/project

## SKILLS

HTML5	CSS3	Javascript	Typescript	React Js
-------	------	------------	------------	----------

Node Js	GraphQL	Mongo Db	MySql	PostGresSql
---------	---------	----------	-------	-------------

React Native	Wordpress
--------------	-----------

## TRAINING / COURSES TAKEN

### Introduction to Typescript

Academind

### Complete NodeJS Developer in 2022 (GraphQL, MongoDB, + more)

Udemy

### Perfect Guide to React Js

Academind

### Building Complex Express Web Application with Redis and Socke.io by Joshua Johanan

Udemy

### The Ultimate MySQL Bootcamp from SQL Beginner to Expert by Colt Steele

Udemy

### Javascript Es6

Udemy

### Building a Simple shopping cart with Node Js and HBs View Engine

Academind

### Web Development Bootcamp by Colt Steele

Udemy

### Creating Facebook ChatBot with chatfuel by Andrew Demeter

Udemy
